- Press Shift+Ctrl+F.
- Adobe Reader opens the advanced search options in a new window. Here it is possible to switch from searching the current document to searching all pdfs in a folder on the hard drive. The folder is freely selectable, with My Documents being suggested by default.

• Now select the option, In the current document and type the word or phrase for which you want to perform search and click on search.

On Click on Search, you will get the list of the occurrence of the input text.
Adobe Reader displays the results in the same window. In Results, every instance of the word or phrase is shown on a separate line. A click on a line opens the containing page in the main Adobe Reader window.

• Now you can traverse the list to see the details.
